SCHOOL BOARD POLICY

The Board of School Trustees believes that the health, safety, and security of students is essential when participation in curricular or extra-curricular activities requires billeting.

The preference of the Board is to have students under direct supervision of supervising teachers and designated chaperones. Having students stay in host-school gymnasiums, hotel/motel accommodations, campgrounds, or other group accommodations are examples of direct supervision.

The Board also recognizes that on some trips, group accommodation may not be possible or desirable. When students are on cultural exchanges or trips where the attempt is to meet some other objective around social interaction, staying with a host family may be more suitable.

When students are billeted the Board expects that the standard of care will be that which is implicitly and explicitly stated in the attached regulations.
