

School District #62 (Sooke)

FINANCIAL PLANNING AND REPORTING	No.: F-334
	Effective: May 23/23 Revised: Reviewed: Apr. 4/23; Apr. 25/23; May 23/23

SCHOOL BOARD POLICY

The Board of Education is responsible to ensure the District has strong financial management control of its resources.

To ensure an effective and transparent use of resources, the Board of Education will build a multi-year financial plan to allocate its forecasted revenues and reserves to achieve its strategic and operational plans, and engage with local community and partner groups, including local First Nations and the Metis Nation BC, in the development of that plan.

The long-term financial health of the District is critical to ensure that a strong educational system is maintained for the students of the District.
